

Town of Southborough PILOT Update

February 8, 2011

PILOT

- The Massachusetts State Constitution, written in 1780, empowered the legislature to promote the arts, sciences, and natural history of our country by granting “reasonable exemptions” to the institutions that embrace these pursuits. The impact of this law is realized in the erosion of Southborough’s tax base.

PILOT Defined

- Payments in lieu of taxes (PILOTs) are payments made voluntarily by tax exempt nonprofits as a substitute for property taxes or services.
- The payments are completely voluntary on behalf of the tax exempt.

Benefits of Tax-Exempts

- Offer many intangible and difficult to quantify benefits to Southborough.
- Offer a variety of community services such as use of institutional facilities.
- The town appreciates the contributions of these institutions which currently fulfill the philanthropic, educational and community service benefits.

Managing Taxes

- **Town must be fair and even-handed in managing its tax base due to the following fiscal realities:**
 - **The over-reliance on the property tax as the only major source of tax revenue;**
 - **The implementation and limitations of Proposition 2 ½;**
 - **Increase demands for costly municipal services;**
 - **The continued decline in federal and state assistance;**
 - **Real costs of providing municipal services to tax exempt properties.**

PILOTs Rationale

- 1. A means to partially offset property tax revenue foregone because the nonprofit's property is tax exempt;
- 2. A contribution to cover the nonprofit's share of the cost of public services offered by the Town; or,
- 3. Viewed as part of the nonprofit's civic duty to be a “good neighbor” to the community.

PILOT Amounts

- 1. The revenue if the tax exempt paid property tax (or percentage thereof); or,**
- 2. Cost of basic services provided to the tax exempt (or percentage thereof); or,**
- 3. Consideration presently being given to per student amount per semester.**
