

Be a part of SYSA making a difference! Southborough children can help children in Haiti by donating their old uniforms and outgrown equipment

Southborough Youth Soccer will be issuing new uniforms in the fall! This exciting change brings an opportunity for our players and their families to donate to an important cause that helps children who love and need soccer.

GOALS www.goalshaiti.org is a non- profit organization that uses soccer in Haiti to engage youth in community service and education that improves quality of life today and develops new leaders for tomorrow. This non-profit is providing free, permanent sport-for-development programs on a daily basis including daily soccer practice where all players receive food, water and education. Players are also required to participate in weekly local development projects that improve their communities.

GOALS relies on donated soccer equipment all of which are directly distributed to the children in Haiti who often play soccer barefoot, kicking around bottles or cans. With your help, GOALS can give these players uniforms and other important equipment. With enough donated equipment, GOALS can start programs in new areas that will help even more children and their families. A little bit can go a long way in Haiti, so every donation makes a big difference!

If you have any questions or would like your player to volunteer to help with this effort please reach out to: Beth Alcock bfalcock@yahoo.com or Kendall Sommers at kendallsommers@verizon.net
