Woodward	0	4	0	0	0	0
Finn	0	7	0	0	0	3
DISTRICT TOTAL	19	81	104	2	0	11

What is a possible in-school transmission? A possible in-school transmission is when an individual is identified as a close contact in school and subsequently tests positive. It is labeled as potential transmission because sometimes, in addition to the exposure at school, these individuals may also have had additional recent exposures outside of school.

What is probable in-school transmission? A possible in-school transmission is when an individual is identified as a close contact in school and subsequently tests positive and they had no other known exposure outside of school.

What happens when there is an in-school transmission? The Medical Advisory Team meets to review the data associated with the case, evaluates the mitigation strategies that are being employed and advises on next steps. Some of the things we evaluate are: the activities happening, air quality, distancing and masking in the areas where transmission may have happened.

VACCINATION RATES

(as of 10/6/21)

ARHS	ENROLLMENT as of 9/1/21	# VACCINATED 10/6/21	% FULLY VACCINATED
	1311	1092	83.30%
9	337	250	74.18%
10	319	270	84.64%
11	320	278	86.88%
12+	335	294	87.76%
MMS	ENROLLMENT as of 9/1/21	# VACCINATED 10/6/21	% FULLY VACCINATED
	536	267	49.81%
6	195	15	7.69%
7	177	121	68.36%
8	164	131	79.88%
TMS	ENROLLMENT as of 9/1/21	# VACCINATED 10/6/21	% FULLY VACCINATED
	397	230	57.93%
6	134	15	11.19%
7	131	103	78.63%
8	132	112	84.85%

Why are these numbers different from the [state vaccination numbers](#)?

The district uses information about vaccine rates from MIIS, parent provided proof of vaccination and immunization records from primary care providers. The population data the state uses for their calculations are not from the most recent census. Additionally, not all of the individuals in each age category identified by the state attend the Public Schools of Northborough and Southborough.

SCREENING AND TESTING

(provided by District)

September 30- October 6 , 2021

COVID Safety Checks* this week	COVID Safety Checks* Cumulative	Test to Stay tests** this week	Test to Stay tests** cumulative	Symptomatic tests** this week	Symptomatic tests** Cumulative
380	380	202	895	42	75
Positive COVID Safety Checks* results this week	Positive COVID Safety Checks* results cumulative	Positive Test to Stay this week	Positive Test to Stay cumulative	Positive Symptomatic this week	Positive Symptomatic Cumulative
1	1	0	3	3	7

*Pooled Screening - PCR test for asymptomatic individuals

**Rapid Antigen test for in-school close contacts and in-school symptom onset

STATE DATA

STATE WEEKLY PUBLIC HEALTH INTERACTIVE DASHBOARD

Data can be found at this [link](#). Choose Interactive Dashboard, City and Town Data and the Weekly Status Map.

City/Town	Total Case Count	Case Count (Last 14 Days)	Average Daily Incidence Rate per 100,000 (Last 14 days)	Relative Change in Case Counts	Total Tests (Last 14 days)	Percent Positivity (Last 14 days)	Change in Percent Positivity
Northborough	1398	50	26.3	Higher	2006	2.59%	Higher
Southborough	611	33	24.4	Higher	2161	1.76%	Higher

Please note: Data for this table is based on information available in the DPH surveillance database at a single point in time. Case counts for specific cities and towns change throughout the day as data cleaning occurs (removal of duplicate reports within the system) and new demographic information (assigning cases to their city or town of residence) is obtained.
