Data from state reports; greater than 100% results indicate population stats for the town are inaccurate

**Population estimate extraplotated from 2019 census data. This data is also an estimate and not completely accurate - but seems to show closer true figures for at least the teen population.*

Data from state reports; greater than 100% results indicate population stats for the town are inaccurate

"Other" includes American Indian, Alaska Native, Native Hawiian, and Pacific Islander populations. Although, Mass Public Health is tracking those groups statewide, given the low numbers in our town, it isn't sharing data on vaccination rates for Southborough's population. Therefore I extrapolated from other data to add those figures to this category.

"Unknown" includes data for patients where providers didn't have means to collect information on race and ethnicity - which is why vaccination figures are larger than population
