Subject: Re: Pocket park

I'll pass on this one.

Is the discussion just focused on the idea of a pocket park, or will it also include more generally discussion about the work needed on the intersection because of the water issues?

Subject: Pocket park

Marty:

FYI – Karen and I have a meeting with St. Mark's at the proposed "pocket park" location on Thursday morning at 9:30AM. If you want to join us, let me know. Otherwise, I will keep you posted on the discussion. Attached are the sketches that Karen shared with St. Mark's to start the discussion; more locational than detail.

Thanks.

Mark
