

Coming Soon

Southborough Senior Center to Install an Automated Check-In System

A new, automated check-in system called MySeniorCenter will soon be installed in our Senior Center. It's specifically designed to help our staff members manage the various sign-ups and sign-ins and improve the way we report our program and service statistics to the town and state.

Today MySeniorCenter is being used by over 2200 senior centers across the U.S. and Canada—so it's a proven tool.

A Change for the Better

The new system is extremely easy to use. Here's how it works:

1. All visitors and volunteers will receive a small keytag. (The keytag contains no personal information, but it will allow the new system to recognize you.)
2. Instead of signing in using our attendance sheets, you'll swipe your keytag at the scanner, or you can enter your name on the touchscreen (see below).
3. Press the touchscreen to select the programs you'll be participating in that day.
4. Press FINISH.

A Smooth Transition

Even though MySeniorCenter is designed to be user-friendly, Senior Center staff members and volunteers will be available early on to help you operate the new check-in system. We want to make the transition as seamless as possible for everyone.

Watch for keytag sign-up coming soon.
